# School Report.

The number of scholars registered in our schools for the year is eighty.

The number of children enumerated by the Truant Officer, between the ages of five and sixteen, is sixty-eight.

The amount of money needed to pay high school tuitions for the coming year will be five hundred and seventy-five dollars.

The amount of money needed to furnish text-books and supplies will be seventy-five dollars. In explanation of the latter sum, we wish to say that no radical change in text-books is contemplated, but that many of the books in use are in a deplorable condition and must be replaced. Books and supplies have been purchased sparingly during the last year, in order that the children might have the benefit of as many weeks of school as possible, consequently there is very little on hand.

New grammars added the first of the year have proved very successful, the children all doing good work. Elementary histories were necessary and have also proved helpful.

We wish to say that we appreciate the faithful efforts of our teachers, and we certainly feel that, as a whole, it has been a year of progress.

One new teacher has been installed, and we wish to add a word of praise for the most excellent work done in the North Road school, under the efficient management of Miss Alice Laughlin.

We again urge the hearty co-operation of parents in insisting upon the regular attendance of their children, and ask them to visit the schools often, and so keep in close touch with the school work.
